Cat. No. PSM-HM110

| Description |  |
| :---: | :---: |
| Source | Recombinant Human PSMA/FOLH1 Protein is expressed from HEK293 with His tag at the N -Terminus. |
|  | It contains Lys44-Ala750. |
| Accession | Q04609-1 |
| Molecular Weight | The protein has a predicted MW of 80.6 kDa . Due to glycosylation, the protein migrates to $90-110 \mathrm{kDa}$ based on Tris-Bis PAGE result. |
| Endotoxin | Less than 1EU per $\mu \mathrm{g}$ by the LAL method. |
| Purity | $>95 \%$ as determined by Tris-Bis PAGE |
|  | > 95\% as determined by HPLC |
| Formulation and Storage |  |
| Formulation | Lyophilized from $0.22 \mu \mathrm{~m}$ filtered solution in PBS (pH 7.4). Normally $8 \%$ trehalose is added as protectant before lyophilization. |
| Reconstitution | Centrifuge the tube before opening. Reconstituting to a concentration more than $100 \mu \mathrm{~g} / \mathrm{ml}$ is recommended. Dissolve the lyophilized protein in distilled water. |
| Storage | -20 to $-80^{\circ} \mathrm{C}$ for 12 months as supplied from date of receipt. -20 to $-80^{\circ} \mathrm{C}$ for $3-6$ months in unopened state after reconstitution. $2-8^{\circ} \mathrm{C}$ for $2-7$ days after reconstitution. Recommend to aliquot the protein into smaller quantities for optimal storage. Please minimize freeze-thaw cycles. |

## Background

Prostate-specific membrane antigen (PSMA) is an enzyme that in humans is encoded by the FOLH1 (folate hydrolase 1) gene, also known as Glutamate carboxypeptidase II (GCPII). Human PSMA is highly expressed in the prostate, roughly a hundred times greater than in most other tissues. In some prostate cancers, PSMA is the second-most upregulated gene product, with an 8 - to 12 -fold increase over levels in noncancerous prostate cells.

## Assay Data

Tris-Bis PAGE

SEC-HPLC

## ELISA Data

## Human PSMA, His Tag ELISA

$0.2 \mu \mathrm{~g}$ Human PSMA, His Tag Per Well

## Log Anti-PSMA Antibody, hFc Tag Conc.( $\mu \mathrm{g} / \mathrm{ml}$ )

The purity of Human PSMA is greater than $95 \%$ as determined by SEC-HPLC.

Immobilized Human PSMA, His Tag at $2 \mu \mathrm{~g} / \mathrm{ml}$ ( $100 \mu \mathrm{l} / \mathrm{Well}$ ) on the plate. Dose response curve for Anti-PSMA Antibody, hFc Tag with the EC50 of $7.0 \mathrm{ng} / \mathrm{ml}$ determined by ELISA (QC Test).
